MS6812

CABLE TRACKER

■ Designed to identify and trace cables or wires within a group without damaging the insulation
■ Judge continuity of the cables or wires
■ Track cables /wires (RJ45, RJ11) and diagnose the break point
■ Identify the status of working telephone line (Clear /Ringing /Busy)
■ Receive the tone signal on telephone line
■ Send a single solid or dual alternating tone to the target cables or wires
■ Volume control increased sensitivity
■ Safety as per IEC1010-1 Cat.III 600V

Specifications
Tone generator output:
    Single 1500Hz;
    Dual 1300~1500Hz
Send tone frequency: 1.5kHz
Receiver frequency: 100~300kHz
Alarm: sound and light
Battery: 1.5Vx6, AA; 9Vx1, 6F22
Size: emitter 190x89x42.5mm
    receiver 241.5x78x38.5mm
Weight: 370g /263g approx.
